

Appendix X.

Countries facing water stress and water scarcity in 2025

(Based on population and water availability projections)

Water-stressed*

Cameroon
India
Nigeria
Peru
Poland
Uganda
Tanzania
United Kingdom

Water scarcity**

Algeria
Burundi
Comoros
Ethiopia
Iran
Kenya
Malawi
Morocco
Rwanda
South Africa
Tunisia

* Water supply problems tend to become chronic and widespread. (Between 1,700 c.m. and 1,000 c.m. per capita).

** Chronic water shortages hamper economic development & cause serious environmental degradation (below 1,000 c.m. per capita).
